Beijing Local tours (LT)

LT1 Lamasery Temple-Lunch-Baiyun Taoist Temple-Church

Two Qing Dynasty emperors lived in Lama Temple, which is the highest Buddhist temple. After the two emperors, the Lama Temple turned to Lama Miao by the Qing government. Tibet's Dalai Lama and the Banchan Lama arrived at temple and taught scripture during visiting Beijing to see the emperor. When the China launched in Cultural Revolution in 1966, the Red Guards were ready to destroy the relics of the feudal in Lama Temple. The Chinese Premier Zhou Enlai sent troops to protect all the cultural relics in Lama Temple and any damage was happened.

Baiyun Guan was built in the Tang Dynasty (AD 739) and is the focus Guan of the Taoist. The creation of Chinese Taoist is earlier than Buddhism. The founder is Laozi, who is the famous thinker and philosopher in Chinese history. The theory of Yin and Yang, and his philosophy ideal and view of material form make a very far impact on China. The requirement of self-practice of Taoism establishes training method of Chinese Qigong. This method has great impact on the development of Chinese Kongfu. To achieve the purpose of live forever, Taoist priests have research the longevity drug. In the process of drugs' producing, it needs to add different substances. And also promote the chemical research. Play an important role of China inventing gunpowder.

The Catholicism was carried to China by Matteo Ricci, who is Catholic Jesuit missionaries, Italian in the Ming Dynasty in 1605. Beijing has 11 existing churches now.

LT2 Tanzhe Temple-Lunch-Jietai Temple-Marco Polo Bridge

Tanzhe Temple was built in the Western Jin Dynasty, has a history of 1700 years, in the one of the earliest Buddhist temples in Beijing, a proverb in Beijing is "first Tan Zhe, after Youzhou". From the Jin Dynasty, every Dynasty has emperor to make pilgrims in Tanzhe Temple, and allocate funds to renovate and expand the temple. Tanzhe Temple plays an important role in the Buddhist and has many famous monks. Therefore, enjoy the reputation of "the First Temple in Beijing".

Jietai Temple was built in the Sui Dynasty of the year 581, the largest Buddhist Jie Altar around the country was built in the temple. In the history, Jietai Temple occupy an important position in the Chinese Buddhist field, is one of the

Buddhism's highest academic institution in China. Since the establishment of Jie Altar, Jietai Temple has been subject to attention of imperial government, many of the abbots is selected by the emperor personally, many famous monks were also appointed to various positions, a number of emperors make pilgrim here. Particularly after the Ming Dynasty, pilgrim in the Jietai Temple must have allowance of the emperor.

Lugou Bridge was built in the Jin Dynasty (1189), 266.5 meters long, and has 501 stone lions in bridge railings. More than 700 years ago, "Lugou Bridge and Moon" is one of the famous eight sceneries. Marco Polo in his Chinese travelling writing praised the Lugou Bridge is the most beautiful bridge, and translate Lugou bridge as Marco Polo Bridge in English. In July 7, 1937, the Japanese aggressors launched an offensive here, and the Chinese War of Resistance against Japan started and persisted for 8 years.

LT3 Hutong tour-Lunch-Residences of Song Qingling, Mei Lanfang and Laoshe

For those who want to experience the local customs as well as the history and culture of Beijing, the Hutong and Siheyuan (quadrangle) are indispensable parts of a visit as unique Beijing architectural structures. A Hutong is an ancient city alley or lane typical in Beijing many were built during the Yuan, Ming and Qing dynasties. In the rich and historical culture of Beijing, the Hutong has a very special and important position.

Guests will visit the former residence of three Chinese celebrities during visiting the alley. Song Qingling was born a pastor and businessman's family in 1893 in Shanghai. She was accepted the "European-style education" in the United States, and was married Dr. Sun Yat-sen who is in exile in 1915. Make great contributions to the cooperation between the CPC and the KMT during War of Resistance Japan in China. At 1949, Song Qingling was elected to the vice chairman of the Central People's Government of People's Republic of China. And she was granted the honorary title of honorary chairman of People's Republic of China after her dying in May 1981.

Mei Lanfang is a great performing artist of Peking Opera. Create many beautiful and memorable art images. At home and abroad, Mei Lanfang is known as the great actor of the incarnation of beauty. The Chinese opera performing art led by him is considered to be one of the three major performances in world today.

Lao She's creative is abundance in his life. In the 1930s he has become one of the most successful authors. Many of his works translated into several foreign languages. Beijing Municipal People's Government granted him the glorious title of "people's artist" in 1951.

LT4 Zhokoudian Peking Man Ruins-Lunch-Yunju Temple

Zhoukoudian Peking Man Ruins is the early human ruins in Paleolithic which has the world's most abundant materials, the most systems, and the most valuable. The Peking Man skull fossils, the tools of artificial production and the sites of fire use are found in 1929, shocked the world and became a major archaeological discovery. During the war between China and Japan, the United States archaeologists preserved the fossil specimens of Peking Man and Shandingdong Man in Beijing Union Medical College Hospital temporarily. And the Peking Man skull fossil is still missing now. The event became the mysteries of the world in archaeological history in the 20th century. Discovery and study of Beijing and its culture deal with the argument of whether "vertical people" is ape or human found by Javanese in and 19th century.

Yunju Temple established in end Sui Dynasty and early Tang Dynasty and has 1400 years history. From 605, the monks in temple carved the sculpture on stone in order to safeguard law. After six dynasties, extent 1039 years, engraved the Buddhist scriptures in 14,278 stone plants. The large scale engraving and the long time are the feat of world's cultural history, and the rare and precious cultural heritage of world. In the Buddhist view, a temple possessing remains skeleton of Sakyamuni Buddha means that the temple has a high status. They were honor by seeing the sarira. In Yunju Temple enshrine the remains of the Sakyamuni Buddha.

LT5 The West Qing Tombs tour

In Asians opinion, the most important thing of selecting living or cemetery location is the Feng Shui. Good Feng Shui will lead to career smooth, family peace, generations blessing. If not, it will bring endless hidden dangers to future generations. Now many foreigners have begun to attach importance to the Feng Shui of selected location. Because of its relationship with the regime and the fate of future generations, Chinese emperors express great importance to the Feng Shui of cemetery. Qingxi Ling is one of the two cemeteries of Qing Dynasty emperors. The place was considered to be auspicious. The area of Mausoleum is up to 50,000 sq. m, built thousands of palace buildings and hundreds of ancient architectures, sculpture and it are pretty much magnificent. Qingxi Ling buried a total of four emperors, 9 Queen's, 56 emperor's concubines, 76 royalties and princesses. In November 2000, the Qingxi Ling was listed as the World Cultural Heritage.
